| BLDG.# | FISH # or ROOM | WINDOW FRAME MEASUREMENT  | M=METAL<br>W=WOOD | FINISHED SHADE MEASUREMENT*   |
|--------|----------------|---|-------------------|---|
|        |                | Window FRAME Outside Dimensions (OD) Width (W) x Height (H), (NOT window glass dimension). Round measurements to the next whole inch (i.e. 10.25" = 11", 12.5" = 13" etc.). |                   | Add 2" to the shade Width (W) and 4" to the shade Height (H) (2" top and 2" bottom) for FINISHED SHADE MEASUREMENTS. To accommodate window coverage and shade mounting. |
| 1      |                | W" x "H   |                   | W" x "H   |
| 2      |                | W" x "H   |                   | W" x "H   |
| 3      |                | W" x "H   |                   | W" x "H   |
| 4      |                | W" x "H   |                   | W" x "H   |
| 5      |                | W" x "H   |                   | W" x "H   |
| 6      |                | W" x "H   |                   | W" x "H   |
| 7      |                | W" x "H   |                   | W" x "H   |
| 8      |                | W" x "H   |                   | W" x "H   |
| 9      |                | W" x "H   |                   | W" x "H   |
| 10     |                | W" x "H   |                   | W" x "H   |

**\*NOTE:** Please contact LOCKDOWN DOOR SHADES for measuring instructions for doors with panic exiting devices, windows with less then 3" below the bottom window frame or windows with less than 3" above the window frame.
